

## CERTIFICATE OF ANALYSIS

|              |           |                    |             |
|--------------|-----------|--------------------|-------------|
| Name         | MELOXIDYL | Batch N°           | 32B1        |
| Presentation | 32 ml     | Manufacturing date | 31-MAR-2014 |
| Code list    | C53120F   | Expiry date        | 31-MAR-2017 |

| Tests                                  | Specifications                                                                                                      | Results  |
|----------------------------------------|---------------------------------------------------------------------------------------------------------------------|----------|
| <b>CHARACTERS</b>                      |                                                                                                                     |          |
| Appearance :                           | After 15 turnarounds, a pale yellow suspension is obtained                                                          | COMPLIES |
| pH :                                   | 3.5 - 4.5                                                                                                           | 4.1      |
| Relative density :                     | 1.150 - 1.190                                                                                                       | 1.170    |
| <b>IDENTIFICATIONS</b>                 |                                                                                                                     |          |
| Meloxicam : (HPLC)                     | RT identical to standard                                                                                            | COMPLIES |
| Sodium benzoate : (HPLC)               | RT identical to standard                                                                                            | COMPLIES |
| <b>TESTS</b>                           |                                                                                                                     |          |
| Uniformity of mass of delivered doses: | $\leq 2$ of the individual masses deviate from the average mass by more than 10% and none deviates by more than 20% | COMPLIES |
| Particles size :                       |                                                                                                                     |          |
| - particles $\leq 30\mu\text{m}$       | $\geq 99$ %                                                                                                         | 100      |
| - diameter of 50% of particles         | $\leq 5$ $\mu\text{m}$                                                                                              | 1        |
| Average volume of delivered dose :     |                                                                                                                     | COMPLIES |
| - 3Kg dose on the 7Kg syringe          | 0.19 - 0.21 ml                                                                                                      | 0.21     |
| - 30Kg dose of the 70Kg syringe        | 1.90 - 2.10 ml                                                                                                      | 1.95     |
| Viscosity :                            | 10 - 40 cP                                                                                                          | 25       |

This batch has been tested in reference to the dossier in force and has been found to meet the specification requirements
